

EXPLORATORY TEST REPORT		
Author: Natalia Piska	Document version [unique ID]: ST1	
	Date [created or last modified]: 16.04.2023r	
App. Name and link: https://testujpl.gitlab.io/pomodoro-kanban-test/		
Test environment [description]: Windows 11 Home, przeglądarka: Google Chrome Wersja 112.0.5615.121		
Session duration: 90 minutes		
Time to prepare the environment and design tests: 10 min	Testing time: 90min	Reporting time: 15min
The idea of exploration [what will be tested]: - is 25 minutes per task always the default, - whether 5 minutes and 60 minutes are set automatically, - is it possible to modify the time in the settings, - boundary values for setting the time of tasks and breaks.		
Percentage of idea implementation [test completeness achieved]: 100%		
Defects:		Issues [ambiguities, doubts]:
ST11: Time for a long break should be set by default to 60 mins but it is for 30 mins. Attached: photoST11		When should the long break start?
ST12: Modification of the "Pomodoro Time" should be up to 59min, but after moving the slider to the right, the time exceeds 59min and stops at 00:15 Attached: filmST12
